In the speculative mind the danger from damaged crops is past. This started May wheat which to brace down at bright for, and influenced a further dup to Bayo. News apart from that of the passang of the stronght was given a little attention. Calles were slightly lower, but receipts were small and the coarse dams seemed to have an abundance of latent strength. Trade wa only moderate but it was nearly all on the selling side until covering set in. Two days ago May wheat was selling at Diac. At the low price today short sales made at the high figures made good profits and the crowd soon saw that the market was oversold. On top of this came news of a disposition toward better business at the seaboard. May sold up sharply to Peic and closed almost firm, a shade lower at 1940. Throughout the day shorts were nervous. The corn strength also decioped an effective influence late. Local receipts were 25 cars; no contract, Minneapolis and Duluth reported 25 cars making a total for the three points of 25 cars against the last week and 33 a year ago. Primary receipts were 25,000 bushels the same day last year. Scaboard cicerances in wheat and flour equalied 25,000 bushels. The seaboard reported 3 loads taken for expert, fifty were said to be of Manitots wheat.

The sandbard reported in loads taken for expert, fifty were said to be of Manitoba wheat.

Corn opened a little easier on the wheat weakness and bears did some short selling. The rain, however, started the built to talking or a further himfrance of the movement to market. Trade was not active, but receipts were small as usual. As the wheat weakness began to disappear corn picked up marked strength. Shorts were nervous, the market set eversold and covering was the order of the day. This sent May up from the to did. and brought a firm close were not cars.
